CHINA RILED

At the Course Recently Taken by the United States in Again Putting Up the Bars to Chinese Citizens.

The Hong Kong, a San Francisco Chinese Newspaper, Says the Emperor Has Signified His Willingness to Prohibit Relations of Any Kind Between China and the United States.

PHILADELPHIA, May 9.—A movement was recently begun to cause the return of all the Chinese in the United States to China in consequence of the exclusion bill.

A few days ago a conference of the Chinese of Pennsylvania, Maryland and several other neighboring states was held in this city and attended by hundreds of the more influential Chinese. Delegates attended from many cities, but all the delegates are kept a profound secret. The convention adjourned Friday.

These meetings have been held in Baltimore, but the fact looked out and one published in the Baltimore papers. Thereupon Gen. Hsu, the Baltimore magistrate, who is also the grand master of the Chinese Masons, issued an edict, transferring the meetings to Philadelphia. The main subjects discussed were the articles published in the Mung Goo, the Chinese weekly published in San Francisco by W. Lee, the editor, in which are detailed the public meetings which have been held in China, particularly attention being called to the one addressed by the emperor himself. The article concludes as follows:

"Our country has at last awakened to the fact that the Chinese and their external and ancestral gods have been unduly imposed upon. Why does not our motherland do likewise to the unbelieving American race? But the time is coming when our rights must be respected. The father has asserted his willingness to listen to the appeal of his children and when we have all done our duty properly the edict will go forth prohibiting relations of any kind between China and this American State. American capital will be driven from our native lands, ships will not be allowed to land in our ports and in fact we will erect another wall in commercial sense. But then there are conditions which must be added. If we ask our home government to enforce these restrictions, we must make imperative upon every Chinese to return to his native hearth. If anyone has not the means to proceed, transportation will be provided for him, and it will be understood by all that in case the action is taken by our government and we acquiesce in all its provisions, he who disregards the order to leave the country, criminally himself in the eyes of the all-wise ministry, and will in case he travels the foreign lands later in life, do so at the risk of losing his head. See that your thoughts and actions are well weighed, have your money well invested and conducted with the utmost secrecy, and in due time success must come to our cause and retaliation be this we wish."

A monster meeting to be held in Boston was proposed and it was suggested that, ministers at Washington, be selected to attend and give his opinion on the movement in question, but the wisest heads expressed grave doubts of the invitation being accepted, as they say that the minister by so doing would compromise himself. Thursday night, Jo Chung, one of the leading lights, arranged the meeting for over two hours. Gong Hoi also made an address.

VESTIBULE TRAIN WRECKED.
Disastrous Accident on the Atchafalaya, Fort and Santa Fe Railroad.
FORT MADISON, La., May 6.—A disastrous accident occurred on the Atchafalaya, Fort and Santa Fe railroad, twenty-five miles west of here. The vestibule train went through a bridge, through the weakening of the foundations by the recent heavy rains.

Seven persons were killed outright and twenty-three injured. The engineer and fireman are among the killed. There are rumors that some of the injured who are seriously hurt. The killed are: Lon Marker, tenth and Main streets, Kansas City; S. E. Verrier, Westport, Mo.; Luther Cornelius, Kirksville, Mo.; J. C. Graves, editor, La Platte, Mo.; William H. Harrison, Oklahoma City; Mrs. J. C. Best, Brush, or Beach, and child of nine months of age. Another child of two years was not injured. The woman and child were from San Bernardino, Cal., and were on their way to Allegheny, Pa., to visit her two sisters.

SACRED DAY AND OCCASION,
Yet Those Present Were Called Upon to Witness.
CLARKSVILLE, Tenn., May 9.—At a colored baptizing at Cherry's Station, three miles from Clarksville, Sunday evening, John Coleman and Thornton Johnson, both colored, became involved in a difficulty, Johnson shot and killed Coleman. Johnson took to the woods, and has not as yet been captured. They both supposed to be under the influence of liquor.

POLK'S PAPER.
Nor Harrison or Blaine, Nor Hill or Cleveland Will It Support.
RALEIGH, May 8.—The Progressive Farmer, L. L. Polk's paper, is out for the third party. It says that the Alliance propose to capture the Democratic conventions. It attacks Governor Holt, who will probably be renominated, and says it will not support him. It denounces both the old parties and says that it will never vote for Hill or Cleveland, Harrison or Blaine.

IT'S A LAW NOW.
The Chinese Exclusion Amendment Signed by the President.
WASHINGTON, May 6.—The vice president, at 12:15 p. m., Thursday, announced his signature to the enrolled amended Chinese bill (having been signed by the president Wednesday). It went back to the house for transmission to the president, who signed it Thursday afternoon, which was just in time to go into effect before the old law expired.

AMERICAN SUNDAY SCHOOL UNION.
Exercise of the Sixty-Eighth Anniversary Held in Washington City.
WASHINGTON, May 8.—The sixty-eighth anniversary of the American Sunday School Union was held in the New York Avenue Presbyterian church yesterday evening. Hon. William Strong, president of the society, presided. Addresses were delivered by Rev. Dr. Bartlett, Rev. J. C. McCallagh, superintendent of missions in the south, and W. L. De Wolf, superintendent of the Rocky mountain districts.

During the past sixty-eight years the society has organized 67,000 Sunday schools, and gathered in 4,215,500 scholars and teachers. It has also circulated \$3,500,000 worth of religious literature. The report read of last year's work shows the following interesting results: One thousand six hundred and sixty-four Sunday schools were organized in places that were previously altogether destitute of religious privileges, containing 7,018 teachers and 59,551 scholars. There were given to 2,127 other schools with 14,402 teachers and 129,350 scholars; while in addition to this, 4,536 schools that had been before reported were added with 35,730 teachers and 290,205 scholars.

Desires all this direct Sunday school work the missionaries of the society distributed by sale and gift 6,458 Bibles and 9,115 Testaments. They made 55,582 visits to families for religious instruction and prayer, and delivered 12,474 sermons and addresses. Six thousand six hundred and seventy-eight conversions were reported as the result of the evangelistic services held by these earnest and faithful men, and 210 churches have been developed from the Sunday schools established by them. While regular preaching services have been secured in many other places as an outgrowth of this Sunday school work. Rev. E. W. Catlett, D. D., aged eighty-one, made an address, and upon the platform was the venerable Dr. Scott, ninety-four years old, father of Mrs. President Harrison, who signed Dr. Catlett's diploma as a professor in Miami University fifty-nine years ago.

CAPTURED BY REBELS.

The Town of Chabasco, Venezuela, Now in the Hands of General Crespo.

New York, May 9.—Cabling to his paper, the Venezuela correspondent of The Herald says: "I have just received important information, which, strange enough, comes by way of Caracas, instead of the insurgent camp near San Sebastian. The news received is to the effect that Chabasco has been taken."

"The mystery surrounding Chabasco is solved at last, and there is no doubt that the commander-in-chief of the government troops is in the hands of the insurgents. Chabasco and its commandant were not taken without a show of resistance, but constant marching and the want of supplies had so weakened the government troops that to hold out against the relentless forces who opposed them was no longer possible."

"Rumors of this disaster to the flower of Palacios's army have been coming in for several days, but they were discredited. Major details mention a fight in which the rebels were driven into the city, with the insurgents following and taking possession."

"The secret of Chabasco's capture is, however, not so simple. From La Guayra has come a message to the effect that Chabasco was taken by the revolutionaries. This indicates that the vessel which landed her cargo somewhere in the vicinity of Puerto Suero carried the material needed by the revolutionaries in Caracas."

"Coro is the northeastern district of Falcon, and was formerly the state of Coro. The reason of the capture of Arango from Carabobo into Los Andes is now clear. He probably crossed over into Coro to help organize the rebellion there."

"Among the passengers on the steamship Venezuela, which arrived at New York Saturday from La Guayra, was Jesus Maria Paul, nephew of ex-President Rojas Paul, of Venezuela. The latter is in New York collecting troops to send to Coro to assist in the overthrow of Palacios."

"The younger Paul, up to a few days before the sailing of the Venezuela from La Guayra, was a prisoner in the Rotunda, Caracas, where he had been placed by order of Palacios four months ago."

"On April 30 he was released, given a passport and ordered to get out of the country at once. Indignant friends had secured his release. His wife and a nineteen-year-old daughter accompanied him. Mr. Paul said last night that Palacios would be overthrown within two months."

What'll the Result Be?
This action is almost sure to create a politico-religious breeze that may develop into a cyclone before the month is out. News has just come from China that that government is making vigorous efforts to suppress the anti-foreign sentiment there. One year work was aimed to do with a penalty for badgering and maltreating some foreign residents.

The bill confessedly violates the terms of the treaty of 1890, and it is to be feared that in operation the section providing for the issue of certificates to Chinese already in the country will prove hard work and injustice and drive out of the United States Chinese men who have a right here, especially when the law is enforced by officers of the Pacific coast, who really question the right of the almost-everybody to existence any way.

Now if the compromise bill which congress passed happens to irritate the Catholics, our Methodist missionaries in the Far West Kingdom may find it going hard with them in their person and property. It is certain that they will get scant courtesy for their religion. This is it which, doubtless, so disturbed the equanimity of the brethren."

An American Monte Carlo.
New York, May 9.—M. P. Phillips, who, in behalf of a syndicate of capitalists, visited France, in order to study the gambling rooms at Monte Carlo, returned Sunday on the Le Bourgogne. It is the syndicate's purpose to get permission to open a resort similar to Monte Carlo, at one of the American pleasure resorts.

Democratic Convention.

Pursuant to the instructions of the Democratic State Central Committee, a mass meeting of the Democrats of Crittenden county is hereby called to meet in Marion on Saturday, May 14, 1892, at 2 o'clock, p. m., for the purpose of appointing delegates to the State convention to be held in Louisville, May 24, for the purpose of selecting delegates to represent the Democrats of Kentucky in the National Democratic Convention at Chicago in June.

J. W. Blue, Ch'mn.

The President's household is not happy.

Mrs. Blaine is taking a hand in the Presidential fight. It is said in a Washington dispatch in this morning's news that she has it in for Harrison because he refused to make her late son Walker Blaine Solicitor for the Department of State. If this is authentic, it means a very black eye for President Harrison.

We are in receipt of the State Geologist's report on the progress of the survey in Kentucky. The report shows that good work has been done by the Geologist, and that Kentucky, when the report is completed will be in shape to let the world know what is under the surface. Referring to the survey in this section Prof. Proctor says: "Mr. E. O. Ulrich had previously done the geologic field work in Caldwell and Crittenden counties, but additional field work was made necessary by observations in these and the adjoining county of Livingston." This was completed, and he is now engaged in preparing the report on these two counties for publication.

If the Democratic doctrines were ever right, they are supremely right now. "Equal rights to all and special privileges to none" is sound doctrine. Let the sunshine of a Republican government fall with its liberal rays upon the rich and poor, the high and low, the farmer, the doctor, the lawyer, the artist and the artisan alike. Give no man, nor class of men, no corporate nor company, nor any other creature, advantages that all do not enjoy. In the battle for bread, in the rush for wealth, and in the race for honors let industry and frugality, honesty and intelligence be unshaken by any law that puts the goal within easier reach of one man than another. This is democracy.

JNO. ROBINSON'S SHOW.

The Amusement Gaiety of the Period.

More than seventy years of continuous ovation has characterized the career of the John Robinson show, which this season is reaching the proud culmination of its triumph. No other show in existence can display so continuous and so clear a record. From the cold waters of the Kennebec to the shores of the Pacific, from the northern boundaries of civilization to the southern limits of the continent, for more than one generation has the name of John Robinson been a household word, and the coming of the always unexceptionable exhibition enters prizes that bear his name is ever greeted with a hearty welcome. From the genesis of the show until its present colossal perfection, there has not been a solitary season in which it has not led its fellows in the multiplicity and general excellence of its attractions, and now it towers above and dwarfs all contemporaneous exhibitions into comparative insignificance, and this season it presents such an opulence of sterling and meritorious attractions as to truly entitle it to be designated as a vast Amusement Gaiety, whose wondrous wealth of entertainment is unlimited and immeasurable. It is merely a work of supererogation to say that his circus has always been the best and biggest, always in the van, always profiting in leading and sensational features, and always fully equipped with the finest stud of horses and the most skillful and finished barback riders, gymnasts and acrobats in the profession; that his large, well-ordered and well-selected menagerie contains living, vigorous specimens of all that is strange, rare and curious within the range of natural history, and that his royal Roman Hippodrome is a vivid and realistic reproduction of that of the days of Imperial Caesar.

It may be said, however, that to these always prominent and desirable attractions has been added, for the current season, a feature so stupendous in unprecedented grandeur and impressiveness, and so enormous in the expense necessary to its production, that the features mentioned, grand and multifarious as they are, can at best play but a secondary part. The grand biblical, historical, scenographic, lyric, terpsichorean and pantomimic spectacle of "Solomon, his Temple, and the Queen of Sheba" is thus alluded to: a transcendently impressive and eminently moral and mind-elevating pageant and scenic production, from the fertile brain of Mr. John Rettig, the projector and creator of "Rome under Nero," "The Fall of Babylon," "Montezuma" and "Bondage in Egypt," noted spectacles which have been annually produced under the auspices of the Order of Cincinnati, and which have become famous throughout the length and breadth of the land. To claim that "Solomon, his Temple, and the Queen of Sheba" is the masterpiece of this brilliant artist is not transcending the limits of veracity. There is not a sensual, libidinous nor lascivious scene, act or thought in the spectacle, and every thing in the entire presentation is holy, chaste and pure. The limits of a newspaper notice prevent mention in detail of the manifold characteristics and excellencies of this gorgeous and imposing spectacle, but the reader will find exhaustive description in the bills, circulars and advertisements disseminated broadcast by the management.

The Robinson show will exhibit at Marion, Ky., Monday, May 30, 1892.

Miles Orton show was here Thursday. The circus performance was good, but the menagerie portion of the show was a tame affair. There are a set of fakirs and gamblers with the show that are a disgrace. Numbers of parties here lost money "monkeying" with the set. The sheriff was called upon more than once to make the rascals disgorge, and in one or two instances they did hand over their ill-gotten gains. Dr. Russell was fleeced of \$70 in making change for one of these sharpers, but succeeded in getting his money. So long as Orton or any other show permits such barnacles to follow them around the people should steer clear of such shows.

Bargain days at Mrs. Wolff's are Wednesday and Friday.

TO THE GOOD PEOPLE OF CRITTENDEN AND ADJOINING COUNTIES.

We wish to say a few words. Two years ago we commenced business at Marion, and have now been in your midst long enough for you to know what kind of people we are. We will say that no other firm has paid out as much money to the farmers as we have, and we have never offered to sell you anything, but have always had the cash and paid it to you for your produce. Now we have begun the sale of flour and would most respectfully ask a share of your trade. We don't ask all but only a part, and remember, if our flour is not as good or better and as cheap or cheaper than any flour offered you we don't want you to take it, as we fully guarantee every sack and barrel, and when it is not what we represent, it don't cost you a cent, and we pay you for time and trouble of taking home and delivering. You are admonished to patronize home industry. What is home industry? Is it not home firms, or firms that pay out their cash to you? Have we not done this for two years and are we not still doing so? We say yes. We are here to stay and will continue to buy your produce or anything you have to sell, and will pay cash and the highest market prices. We want 500,000 dozen eggs at once, 500,000 chickens, 500,000 lbs of wool, and everything else you have to sell. We have got the cash ready to pay for it and don't you forget it. If at any time we mistreat you, all you have to do is let us know and we guarantee to satisfy you. It is true our mills are not located at Marion, but that does not effect prices, and as prices are what talks, "we are in it." We offer flour at same price as others and we will pay you the same price as others for your wheat, corn, etc. As we have been in your midst for two years, paying out from thirty to forty thousand dollars per year, before we had asked for a cent of your custom for anything we sell, we can not see why we are not entitled to some of it the same as any other home industry, as when you buy our flour your money does not leave the county, but goes right back into you or your neighbors' hands for circulation. Don't take our word for this, but ask the Marion Bank if we ever send a cent away from here, but on the other hand, we are always bringing money in to pay out.
